

### **CW Logistics Environmental Policy**

CW Logistics understands that it has a duty to uphold its environmental responsibility and that it takes sustainability and the environment into consideration in all its activities. With this in mind CW Logistics have made that commitment in every area of operation and expect the same of their partners and suppliers. The key points are:

- ✓ Ensure compliance with all current environmental policies and preparedness for future environmental legislation
- ✓ Take steps to reduce the environmental impacts that may arise through our operations
- ✓ Take steps to reduce the environmental impacts that may arise through our operations
- ✓ To minimize waste wherever possible and maximise efficient use of utilities
- ✓ Regularly review our performance in this area and identify areas for improvement
- ✓ Align ourselves with suppliers and partners who share this vision.
